Experience and Results Matter

Don has helped hundreds of folks just like you.

- Couples suffocating under too much debt
- Couples struggling to communicate about money
- Divorced and Single Moms that are starting over
- High six-figure incomes who struggle as well
- Singles who are looking for a way out of stress
- Newlyweds and those just engaged
- Small businesspeople who want to be successful
- Those just wanting a “check under the hood”
- Employer-based Financial Literacy Training

In 1987, newly married with bottom-level jobs and student loans, Don and his wife started their journey. They climbed from the bottom to the top, and now have zero debt of any sort, live in a paid for house, have plenty of money, still do a monthly budget, and are in financial "peace."

Don is a Coach. In addition to financial coaching and training, he coaches how to plan and set goals, so that you can live *Your Life*. He serves others too. He is a volunteer guide / coach with the US National Paralympic Nordic (Cross Country) Ski Team.

He is Board Chairman of Ogden Valley Adaptive Sports in Ogden, Utah.

Don is an avid skier, fly fisherman, backpacker/mountaineer (that's Mt. Everest in the background), mountain biker, gardener, amateur cowboy, sports watcher, and loves to read real books.

He and his wife have one daughter, two horses, three dogs, and live on a nice spot out in the country.
